

Kaws in Action

There is a new 4th grade group at Lecompton Elementary called *Kaws in Action*. The role of this group is to plan community service or civic engagement projects. Every fourth grader will have the opportunity to be a part of this group sometime during this school year.

Currently, students in Mrs. Johnson's class are serving on this committee. For their project, they have decided to help animals at a local shelter. During the week of October 23rd, they will be collecting items the shelter needs and raffling prizes to earn money for the shelter. Please watch for more information next week.

When the students have completed their project in November, they will visit the shelter to deliver the items and money collected. While they are visiting the shelter, they will take a guided tour to learn more about the role the shelter plays in our community. .
